TIMSS Advanced 2015
Curriculum Questionnaire—Mathematics
TIMSS Advanced 2015 Curriculum Questionnaire – Mathematics

The TIMSS Advanced 2015 Curriculum Questionnaires are designed to collect basic information about the structure of the education system as well as the organization, content, and implementation of the advanced mathematics and physics curricula in each country. There are separate questionnaires for Advanced Mathematics and Physics.

The questionnaires should be completed by the National Research Coordinators, drawing on the expertise of curriculum specialists and educators. Please submit the questionnaires no later than August 31, 2015.

To begin this questionnaire, please click on the “Next” button. When navigating through the questionnaire, make sure to confirm your responses by clicking on the “Next” or “Previous” button. To go to a particular section or item, please click on the corresponding link in the “Table of Contents”.

If you have any questions about the content of this questionnaire, please contact the TIMSS & PIRLS International Study Center at Boston College: timss@bc.edu

If you have any technical questions on how to complete this questionnaire, please contact the IEA Data Processing & Research Center (DPC): timss@iea-dpc.de

About the Advanced Mathematics Programs (Tracks)

This questionnaire refers to the national advanced mathematics curriculum that was in effect for the students assessed in TIMSS Advanced 2015—the curriculum that covers advanced mathematics instruction for the majority of students in these programs or tracks. If you do not have a national curriculum, please summarize for your state or provincial curricula.

1. A. Describe the advanced mathematics programs/tracks assessed by TIMSS Advanced 2015. How do the programs/tracks fit into the overall curriculum from the first grade through the final year? How do they relate with programs at the university level, if at all (e.g., is participation a prerequisite for studying certain fields such as engineering or medicine)?

Examples of information reported for TIMSS Advanced 2008 can be found in the second column of Exhibit 1.1 on pages 26-27 of the 2008 report. Click here to view

B. How many years are students in these programs/tracks, and at which grade do they start?

Examples of information reported for TIMSS Advanced 2008 can be found in the third column of Exhibit 1.1 on pages 26-27 of the 2008 report. Click here to view

C. What is the total amount of class time in advanced mathematics for the students in the advanced mathematics programs/tracks?

Examples of information reported for TIMSS Advanced 2008 can be found in the fourth column of Exhibit 1.1 on pages 26-27 of the 2008 report. Click here to view

Comments:

[Blank field for comments]
2. A. What are the criteria for admission to these advanced mathematics programs/tracks?

Examples of information reported for TIMSS Advanced 2007 can be found in the fifth column of Exhibit 1.1 on pages 26-27 of the 2007 report. Click here to view.

B. Are there any prerequisite courses for students taking these advanced mathematics programs/tracks?

Check one circle only.

☐ Yes
☐ No

If Yes...
Please explain:

Advanced Mathematics Curriculum

3. A. Summarize the mathematics curriculum that was in effect for the students assessed in TIMSS Advanced 2015. (750 words)

If applicable, please reference your country’s curricular documents.

B. In what year was the advanced mathematics curriculum introduced?

Examples of information reported for TIMSS Advanced 2008 can be found in the second column of Exhibit 1.3 on page 33 of the 2008 report. Click here to view.

Comments:

(Continued on Next Page)
C. Is the advanced mathematics curriculum currently being revised?

Examples of information reported for TIMSS Advanced 2008 can be found in the third column of Exhibit 1.3 on page 33 of the 2008 report. Click here to view.

Check one circle only:

- Yes
- No

If Yes...
Please explain:

If No...
Comments:
4. Is there a process for approving the advanced mathematics instructional materials?

Check one circle only.
- Yes
- No

If Yes...
Please describe the process, and what materials (e.g., textbooks, workbooks, online materials) must be approved through this process:
5. A. Does the curriculum contain statements/policies about the use of technology (e.g., computers, tablets, calculators) in advanced mathematics instruction?

Check one circle only.

- Yes
- No

If Yes...
What are the statements/policies?

Comments:

B. Does the curriculum contain statements/policies about student use of technological aids (e.g., computers, tablets, calculators) in advanced mathematics tests or examinations?

Check one circle only.

- Yes
- No

If Yes...
What are the statements/policies?

Comments:
Examinations

6. A. Does an educational authority in your country (e.g., National Ministry of Education) administer examinations to students in these advanced mathematics programs/tracks that have consequences for individual students, such as entry to a university?

Check one circle only.

- Yes
- No

If Yes....
B. Please describe the secondary school grades at which the exams are given to students in each of these programs/tracks and the purpose of each exam.

Examples of information reported for TIMSS Advanced 2006 can be found in the third and fifth columns of Exhibit 1.6 on pages 38-39 of the 2006 report. Click here to view

C. What is the nature and format of the examinations, and do they have an oral component?

Examples of information reported for TIMSS Advanced 2006 can be found in the fourth column of Exhibit 1.6 on pages 38-39 of the 2006 report. Click here to view

D. Additional comments on the examination system

Examples of information reported for TIMSS Advanced 2006 can be found in the sixth column of Exhibit 1.6 on pages 38-39 of the 2006 report. Click here to view
### Advanced Mathematics Topics Covered

7. According to the curriculum, should the students in the advanced mathematics programs/tracks being assessed by TIMSS Advanced have been taught each of the following topics by the end of the year (in the current course or before)?

If part of a topic does not apply (e.g., logarithmic expressions in part A topic (a)), please explain in the comment field.

<table>
<thead>
<tr>
<th>A. Algebra</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Operations with exponential, logarithmic, polynomial, rational, and radical expressions</td>
<td></td>
<td></td>
</tr>
<tr>
<td>b) Operations with complex numbers</td>
<td></td>
<td></td>
</tr>
<tr>
<td>c) Evaluating algebraic expressions (e.g., exponential, logarithmic, polynomial, rational, and radical)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>d) The nth term of arithmetic and geometric sequences and the sums of finite and infinite series</td>
<td></td>
<td></td>
</tr>
<tr>
<td>e) Linear, simultaneous, and quadratic equations and inequalities; radical equations, logarithmic, and exponential equations</td>
<td></td>
<td></td>
</tr>
<tr>
<td>f) Slopes, y-axis intercepts, and points of intersection of straight lines</td>
<td></td>
<td></td>
</tr>
<tr>
<td>g) Equivalent representations of functions, including composite functions, as ordered pairs, tables, graphs, formulas, or words</td>
<td></td>
<td></td>
</tr>
<tr>
<td>h) Properties of functions including domain and range</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<tr>
<td>c) School self-evaluation</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>d) National or regional examinations</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>e) Other</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

Other: Please specify below:

Comments:
9. A. Does your country sponsor national programs to encourage students to study advanced mathematics?
   Check one circle only.
   ☐ Yes
   ☐ No

If Yes...
B. Does your country implement any of the following programs to promote the study of advanced mathematics?

   Check one circle for each line.

   a) School partnerships with industry ☐ Yes ☐ No
   b) School collaborations with universities ☐ Yes ☐ No
   c) Contests/competitions in advanced mathematics ☐ Yes ☐ No
   d) Other ☐ Yes ☐ No
   Please specify:

If applicable, please describe the programs implemented in your country to promote the study of advanced mathematics:

10. Describe the national requirements for being a teacher of the advanced mathematics programs/tracks being assessed in TIMSS Advanced.
11. Does your country experience any difficulties recruiting or retaining advanced mathematics teachers of students at the end of upper secondary school?

Check one circle only.

- Yes
- No

If Yes...
