Teacher Questionnaire

Your school has agreed to participate in TIMSS 2019 (Trends in International Mathematics and Science Study), an educational research project sponsored by the International Association for the Evaluation of Educational Achievement (IEA). TIMSS measures trends in student achievement in mathematics and science and studies differences in national education systems in almost 60 countries in order to help improve teaching and learning worldwide.

This questionnaire is addressed to teachers of <eighth grade> students, and seeks information about teachers’ academic and professional backgrounds, classroom resources, instructional practices, and attitudes toward teaching. Since your class has been selected as part of a nationwide sample, your responses are very important in helping to describe secondary education in <country>.

Some of the questions in the questionnaire refer to the “TIMSS class” or “this class.” This is the class that is identified on the front of this booklet, and which will be tested as part of TIMSS in your school. If you teach some but not all of the students in the TIMSS class, please think only of the students that you teach when answering these class-specific questions. It is important that you answer each question carefully so that the information that you provide reflects your situation as accurately as possible.

Since TIMSS is an international study and all countries are using the same questionnaire, you may find that some of the questions seem unusual or are not entirely relevant to you or schools in <country>. Nevertheless, it is important that you do your best to answer all of the questions so comparisons can be made across countries in the studies.

It is estimated that you will need approximately 35 minutes to complete this questionnaire. We appreciate the time and effort that this takes and thank you for your cooperation and contribution.

When you have completed the questionnaire, please place it in the accompanying envelope and return it to:

<Insert country-specific information here>.

Thank you.

How would you characterize each of the following within your school?

Check one circle for each line.

- Very high
- High
- Medium
- Low
- Very low

a) Teachers' understanding of the school's curricular goals

b) Teachers' degree of success in implementing the school's curriculum

c) Teachers' expectations for student achievement

d) Teachers' ability to inspire students

e) Parental involvement in school activities

f) Parental commitment to ensure that students are ready to learn

g) Parental expectations for student achievement

h) Parental support for student achievement

i) Students' desire to do well in school

j) Students' ability to reach school's academic goals

k) Students' respect for classmates who excel academically

l) Collaboration between school leadership (including master teachers) and teachers to plan instruction

Thinking about your current school, indicate the extent to which you agree or disagree with each of the following statements.

Check one circle for each line.

- Agree a lot
- Agree a little
- Disagree a little
- Disagree a lot

a) This school is located in a safe neighborhood

b) I feel safe at this school

c) This school's security policies and practices are sufficient

d) The students behave in an orderly manner

e) The students are respectful of the teachers

f) The students respect school property

g) This school has clear rules about student conduct

h) This school's rules are enforced in a fair and consistent manner

More than once a month --- 

Once a month --- 

Twice a year -- 

Once a year --- 

Never --- 

How much importance do you place on the following assessment strategies in science?

Check one circle for each line.

A Lot 

Some 

None 

a) Observing students as they work ---------- 

b) Asking students to answer questions during class ------- 

c) Short, regular written assessments -------------- 

d) Longer tests (e.g., unit tests or exams) ----------------------------------- 

e) Long-term projects ------------
