Teacher Questionnaire

<Grade 4>

<TIMSS National Research Center Name>
<Address>
Your school has agreed to participate in TIMSS 2019 (Trends in International Mathematics and Science Study), an educational research project sponsored by the International Association for the Evaluation of Educational Achievement (IEA). TIMSS measures trends in student achievement in mathematics and science and studies differences in national education systems in almost 60 countries in order to help improve teaching and learning worldwide.

This questionnaire is addressed to teachers of <fourth grade> students, and seeks information about teachers’ academic and professional backgrounds, classroom resources, instructional practices, and attitudes toward teaching. Since your class has been selected as part of a nationwide sample, your responses are very important in helping to describe primary/elementary education in <country>.

Some of the questions in the questionnaire refer to the “TIMSS class” or “this class.” This is the class that is identified on the front of this booklet, and which will be tested as part of TIMSS in your school. If you teach some but not all of the students in the TIMSS class, please think only of the students that you teach when answering these class-specific questions. It is important that you answer each question carefully so that the information that you provide reflects your situation as accurately as possible.

Since TIMSS is an international study and all countries are using the same questionnaire, you may find that some of the questions seem unusual or are not entirely relevant to you or schools in <country>. Nevertheless, it is important that you do your best to answer all of the questions so comparisons can be made across countries in the studies.

It is estimated that you will need approximately 35 minutes to complete this questionnaire. We appreciate the time and effort that this takes and thank you for your cooperation and contribution.

When you have completed the questionnaire, please place it in the accompanying envelope and return it to:

<Insert country-specific information here>.

Thank you.
About You

G1

By the end of this school year, how many years will you have been teaching altogether?

_____________ years
Please round to the nearest whole number.

G2

Are you female or male?

Check one circle only.

Female --- ○
Male --- ○

G3

How old are you?

Check one circle only.

Under 25 --- ○
25–29 --- ○
30–39 --- ○
40–49 --- ○
50–59 --- ○
60 or more --- ○

G4

What is the highest level of formal education you have completed?

Check one circle only.

Did not complete <Upper secondary education—ISCED Level 3> --- ○
<Upper secondary education—ISCED Level 3> --- ○
(If you have not completed <post-secondary or tertiary education>, go to #G6)

<Post-secondary, non-tertiary education—ISCED Level 4> --- ○
<Short-cycle tertiary education—ISCED Level 5> --- ○
<Bachelor’s or equivalent level—ISCED Level 6> --- ○
<Master’s or equivalent level—ISCED Level 7> --- ○
<Doctor or equivalent level—ISCED Level 8> --- ○

G5

A. During your <post-secondary> education, what was your major or main area(s) of study?

Check one circle for each line.

Yes No

a) Education—Primary/Elementary
b) Education—Secondary
c) Mathematics
d) Science
e) <language of test>
f) Other

B. If your major or main area of study was education, did you have a specialization in any of the following?

Check one circle for each line.

Yes No

a) Mathematics
b) Science
c) Language/reading
d) Other subject
G6

How would you characterize each of the following within your school?

Check one circle for each line.

<table>
<thead>
<tr>
<th>Very high</th>
<th>High</th>
<th>Medium</th>
<th>Low</th>
<th>Very low</th>
</tr>
</thead>
</table>

a) Teachers’ understanding of the school’s curricular goals
b) Teachers’ degree of success in implementing the school’s curriculum
c) Teachers’ expectations for student achievement
d) Teachers’ ability to inspire students
e) Parental involvement in school activities
f) Parental commitment to ensure that students are ready to learn
g) Parental expectations for student achievement
h) Parental support for student achievement
i) Students’ desire to do well in school
j) Students’ ability to reach school’s academic goals
k) Students’ respect for classmates who excel academically
l) Collaboration between school leadership (including master teachers) and teachers to plan instruction

G7

Thinking about your current school, indicate the extent to which you agree or disagree with each of the following statements.

Check one circle for each line.

<table>
<thead>
<tr>
<th>Agree a lot</th>
<th>Agree a little</th>
<th>Disagree a little</th>
<th>Disagree a lot</th>
</tr>
</thead>
</table>

a) This school is located in a safe neighborhood
b) I feel safe at this school
c) This school’s security policies and practices are sufficient
d) The students behave in an orderly manner
e) The students are respectful of the teachers
f) The students respect school property
g) This school has clear rules about student conduct
h) This school’s rules are enforced in a fair and consistent manner

### A. Life Science

a) Physical and behavioral characteristics of living things and major groups of living things (e.g., mammals, birds, insects, flowering plants)

b) Major body structures and their functions in humans, other animals, and plants

c) Life cycles of common plants and animals (e.g., flowering plants, butterflies, frogs)

d) Characteristics of plants and animals that are inherited

e) Interactions between organisms and their environments (e.g., physical features and behaviors that help living things survive in their environments)

f) Relationships in ecosystems (e.g., simple food chains, predator-prey relationships, competition)

g) Human health (transmission and prevention of diseases, everyday behaviors that promote good health)

### B. Physical Science

a) States of matter (solid, liquid, gas) and their properties (volume, shape)

b) Classifying materials based on physical properties (e.g., weight/mass, volume, state of matter, conductivity of heat or electricity)

c) Mixtures, including methods for separating a mixture into its components (e.g., sifting, filtering, evaporation, using a magnet)

d) Properties of magnets (e.g., like poles repel and opposite poles attract, magnets can attract some objects)

e) Physical changes in everyday life (e.g., changes of state, dissolving)

f) Chemical changes in everyday life (e.g., decaying, burning, rusting, cooking)

g) Common sources of energy (e.g., the Sun, wind, oil) and uses of energy (heating and cooling homes, providing light)

h) Light and sound in everyday life (e.g., shadows and reflections, vibrating objects make sound)

i) Heat transfer (e.g., energy flows from a hot object to a colder object)

j) Electricity and simple electrical circuits (e.g., a circuit must be complete to work correctly)

k) Forces that cause objects to move (e.g., gravity, pushing/pulling) or change their motion (e.g., friction)

l) Simple machines (e.g., levers, pulleys, wheels, ramps) that help make motion easier
